Violent Crimes

JGL has justly earned its stellar reputation for defending individuals accused of committing serious crimes. We can identify mismanaged crime scenes and incomplete investigations, often resulting from law enforcement's lack of time and resources.

We uncover false or inaccurate statements and contradictory evidence and identify and locate alternative leads that tip the scales of justice in your favor. If you or a loved one is accused of a serious violent crime, remember a criminal charge isn't necessarily a conviction; we will aggressively defend your rights in and out of court.
