

Products Liability

We rely on products every day. We expect them to work safely and as designed. Unfortunately, that is not always the case, and when products are defective and cause injury to consumers, the manufacturer, designer, and seller of the product may be liable.

If you or a loved one is injured by a defective product, you may be entitled to damages. JGL lawyers bring the proven skill and resources you need to prevail in a product liability action. We investigate your claim, examine product design, manufacture, and function, and ensure liability is where it belongs: squarely at the feet of the designer, manufacturer, or distributor. Our seasoned product liability attorneys work hand-in-hand with engineering experts to diagnose the source of the failure and determine the culpability of the defendant. Our experience in advocating victim's rights in defective product liability claims includes:

- Pharmaceutical drugs
- Medical devices
- Automobiles
- Household appliances
- Electronics
- Lithium-ion batteries
- Construction and industrial products
- Machinery
- Hazardous materials

Work with an Experienced Maryland Product Liability Attorney

What matters to you, matters to us. For over five decades, JGL attorneys have fought to improve the future of families, the arc of careers, the success of business, and your most basic human rights.
